

WNC Business Continuity Management Policy

WNC is a leader in the integration of networking technologies in the communications industry. The company strives to provide all of its stakeholders with optimized and reliable products and services.

WNC gathers information on changes in the external environment and market demand, and based on this information develops and implements a business continuity plan. By continual improvement of operational flexibility and response capabilities, WNC aims to minimize impact on business operations, so as to protect the rights and interests of WNC and its stakeholders.

Objectives

- Ensure employees' livelihoods
- Identify and mitigate risks to continuity of business operations
- Minimize incident response and recovery time and costs
